PROFESSIONAL SUMMARY

Innovative Front-End Developer focused on building responsive, user-centric web applications. Proficient in React, Next.js, TypeScript, and modern CSS frameworks and libraries. Proven record optimizing performance, reducing API calls by 30% and improving load times by 25%.

TECHNICAL SKILLS

- **Languages/Frameworks:** HTML, CSS, JavaScript(ES6+), TypeScript, React.js, Next.js, Vue.js
- **Styling:** Tailwind CSS, Shadcn UI, Mantine UI, Vuetify, Responsive Design
- **State Management:** Redux Toolkit, React Hook Form, Context API, Tanstack Query
- **APIs & Tools:** Node.js, Express.js, Prisma, RESTful APIs, Postman, Git & Github, Jest
- **Integrations:** i18next (Internationalization), Google Translate API, Email Notifications

EXPERIENCE

Frontend Web Developer | Hy-Initiative Limited

04/2025 – 07/2026

- Developed and maintained production web applications supporting mentorship, learning, and institutional partnerships for organizations including 3MTT, NSE, and FUWukari, improving user retention by 35%.
- Continuously integrating and deploying various features as needed by partner institutions.
- Collaborated with backend and design teams to integrate RESTful APIs and maintain code quality across products.
- Optimized front-end performance: reduced unnecessary API calls by 30% and improved load times by 45%.
- Implemented multilingual support (French/Arabic) for the CITN admin dashboard to enhance accessibility.
- Built the DigiSpray admin dashboard for user and event management, improving admin workflows.

Frontend Engineer | NoonPrep

03/2026 – 07/2026

- Developed the Noonprep simulation-based exam and practice application with potentials of increasing the learning outcomes of learners by 45%.
- Continuously integrating and deploying various features as needed by partner institutions and organizations.
- Collaborated with backend and design teams to integrate RESTful APIs and maintain code quality across products.
- Implemented personalized dashboards, guided practice, timed exam simulations, analytics, resources, and realtime quiz challenges to make learn fun and engaging.

Frontend Developer | Uptick Talents Labs Limited

12/2025 – 02/2026

- Led frontend development for the Jooav ERP application connecting wholesalers and manufacturers; implemented order management, procurement flows, and vendor accountability features.
- Implemented role-based access control (RBAC), responsive layouts, and theming via design tokens, enhancing brand identity.
- Integrated inventory and order tracking, invoicing-ready components, and dashboard reporting to support procurement and fulfillment workflows.

Frontend Developer | M15 Innovations

02/2025 – 03/2026

- Built Greysoft, a multi-tenant School Management System architecture with secure domain-based routing and role-based authentication.
- Developed dynamic dashboards and real-time messaging for students, teachers, and admins to improve school interaction and engagement.
- Delivered a responsive, high-performance UI ensuring seamless cross-role user experience.

Frontend Developer Intern | Uptick Talents

11/2024 – 03/2025

- Developed the GetCassava App, improving Ugandan farmers' access to online markets
- Implemented responsive layouts, optimized UI performance, and debugged issues during sprints.
- Participated in code reviews and worked closely with other developers to refine frontend architecture.

PROJECTS

School Management System (*Next.js - Tanstack - Tailwind - ShadcnUI - Redux - Paystack & Flutter*)

Developed Greysoft - a multi-tenant architecture, role-based auth, domain routing, and real-time messaging for school users.

WESOnline Marketplace (*React.js - Typescript - Tanstack - Mantine UI - Redux - Jitsi*)

Collaborated within a cross-functional development team to build the WESOnline platform, supporting mentorship programs and professional skill development.

Crypto Payment Integration for Course Registration (*Full-stack, Next.js - ShadcnUI - Tailwind*)

Developed a full-stack course registration platform with cryptocurrency payment support. Integrated NOWPayments, implemented a dynamic pricing and discount system, and automated email notifications for successful registrations.

Jooav ERP (*Next.js - Tanstack - Tailwind - ShadcnUI - Redux - Monnify*)

Developed the frontend for Jooav ERP, a supply-chain and order management platform connecting wholesalers and manufacturers.

NoonPrep(*Next.js - Typescript - Redux - Tailwind - ShadcnUI - Socket.io*)

Lead the Frontend development of a Simulation based exam practice and preparation application, building features supporting exam sessions, solo quizzes and live challenge with users across the app, improving learning and study outcomes by 45%. [View project](#)

Devlyke Labs — Portfolio (*Next.js - Nest.js - Tanstack - PostgreSQL - ShadcnUI - Tailwind CSS - Prisma*)

Building a full-stack portfolio platform with a Next.js frontend and NestJS backend. Implemented backend APIs for contact submissions and project retrieval, with the platform being expanded to support portfolio content and project management.

EDUCATION

B.Eng. Civil Engineering | Federal University of Technology, Owerri (FUTO)

2018 – 2024

Transitioned into frontend development through self-learning, bootcamps, and hands-on projects.

CERTIFICATIONS & TRAINING

- 3MTT Full-Stack Software Development Training (2025)
- Havard's Computer Science Foundation Course - CS50x (2025)
- Uptick Talents Software Engineering Program (2024)
- Jobberman Soft Skills Training (2025)

LANGUAGES

- Fluent: English, West African Pidgin.
- Others: Igbo, Yoruba.

REFEREES

- Miss Adaeze Ibekwe – CEO & Founder, NoonPrep
- Mr. Kingley Ajaezo – Frontend Mentor, Uptick Talents
- Miss Perpetual Meningwa – Full Stack Developer (+234 806 9683 219)
